Memo to File:

RE: Mountain Maid  
Cudahy Mine  
ACT/027/002  
Millard County

This perlite minesite was visited by Cleon Feight and Jim Smith on January 8, 1981. There has been no apparent activity since the previous inspection. It is a pre-existing open pit and strip operation which has not yet begun reactivation work. Mountain Maid should be contacted as to the mine's status and plans.
